

AZCO INDUSTRIES LIMITED

Advanced Ozone Technology (since 1975)

Application Questionnaire

Meat processing plant

1. Project name.

2. Describe the application. Example: feed water, plant process, treated water usage.

3. What is the total water flow per day and the maximum flow demand?

4. What pressure is required in your system?

5. What waste water flow do you discharge?

6. Do you want to recycle some water flow?

7. What is the average and maximum temperature of the treated water during a year?

8. What is the location's voltage, current, and frequency?

9. Do you plan on future expansion?

10. If available, please attach a sketch of all applicable elements.

Please email the completed questionnaire to azco@azcozon.com

We look forward to working with you.
